

I Am a Bee

I am a bee and I work very hard
With all of my friends in this hive.
I am a "worker" ~ I work day and night,
So that all of us here can survive.

We work for our Queen Bee every day.
We gather the food and build cells.
We eat pollen and honey to build up our glands,
And we feed the young larvae as well.

So, now that you see what it's like in our hive,
And know some of the work that we do.
We hope from now on that you'll all understand,
That the words "**Busy as a Bee**" are so true!

Flies and Bees

(Sung to: Sing a Song of Sixpence)

G
Flies and bees are insects,
D
Buzzing all around,
D
Flying in the air and...
G
Landing on the ground.

G
We will leave the insects
D
To do the things they do.
D
We will share the space because...
D G
We're all busy too!
